What Our Members Are Saying

"The membership fee is WELL WORTH IT! I saved nearly \$5,000 just by getting a better price from my suppliers. Being part of The Network gives me a competitive edge that no small business can accomplish alone. Opportunities like this are rare and The Network was responsible for making it happen."

Roger Magalhaes
Shades IN Place, Inc.
Franklin, MA

"The Network boosted my bottom line – I am thrilled with the new vendors and their product lines. The Network introduced me to great suppliers I wouldn't have investigated otherwise. The Network is doing a great job servicing the needs of my small interior design firm and connecting me with quality vendors."

ALL THAT GLITTERS is gold

Golden Glam!

Decorating with gold used to be reserved for royalty or the ultra-wealthy. Now brought to ground level, gold no longer is off-limits. All ranges of gold accents are creeping up to design schemes and all rooms.

Window Bling!

Drapery hardware is where you can go crazy and show off and treat their sheers with gorgeous fringes and rods. It's totally acceptable and encouraged to mix metals too -- get inspired!

fabric focus

Fabric is the new way to add color and texture to a space and the most budget. Add drapery, a top treatment and accent pillows to change your room without changing your shades.
